

Over the past two terms, a panel has been underway to fill the Pooraka Principal position for the next 5 years. As you know, last term, the panel determined that there was no nomination, so the process started again this term. We are expecting an outcome to be announced this Friday.

Week 9					

School resumes Monday 29th January 2024

The farm comes to Pooraka Primary

This week, the farm visited Pooraka Primary School. Area 1 and 2 enjoyed a visit to the animals - but we think that Ms Deborah had the most fun! The Unit classes have been learning about animals and life cycles as part of the Science curriculum throughout term 3.

Healthy School Lunches

Up to 40% of a child's food intake can happen at school. The food and drink they eat in that time can make a difference to their learning and concentration.

You can support us to have the best food and drink choices available for your child.

The food and drink you provide can help your child learn and play at school.

When packing food for your child to eat at school consider:

- involving your child in packing or preparing foods
- variety, taste and colourful choices can be most enjoyable
- reducing packaging where you can
- water as the best drink option.

Ensuring we eat a wide variety of nutritious foods and drink plenty of water every day is an important part of supporting health and wellbeing, it helps us to reduce the risk and severity of diseases and contributes to living better, happier and longer lives.

There is some great information and ideas available at :
www.wellbeingsa.sa.gov.au

Italian - Pizzas and Galati

As part of the Italian curriculum this term, student have been exploring the food of Italy; along with building their language skills of speaking, listening, reading and writing in a simulated gelateria and pizza café.

Sports Day

Last week we had a fabulous sports day, Students, staff and families got involved.

Green won the VALUES CUP

Blue won the WINNING SHIELD
